# 1. Miscellaneous

## 1.1. Record of Change

Version- and Change management

Datum	Änderung	Bemerkung	geändert von
19.04.21	Creation		Ingo Sombke
20.05.21	Change: Registration and LogIn		Stephan Schuchart
21.09.2021	Change: Slotbooking		Stephan Schuchart

## 1.2. Framework conditions

Additionally to the existing user manual of the company: star/trac, this document describes in detailed the handling of Check-In for forwarders at **BASF InfraService & Solutions Lausitz GmbH** beginning with April, 19'th 2021.

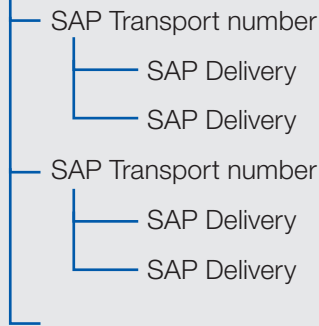

**Process:** Pick-Up of packed goods

The registration has to be done for transports of BASF Schwarzheide GmbH, BASF Coatings GmbH Schwarzheide und **BASF InfraService & Solutions Lausitz GmbH**.

The hitherto used SAP Internet Check-In will no longer be valid may not be used.

For Bulk goods there is always a 1:n relationship between Flow Drive number and the number of transport in SAP!

FLOW Drive number

## 1.3. Glossar

AWAS	Automatic Scale System
BSW	BASF Schwarzheide GmbH
FDS	Fahrzeug-Durchlass-Schein
SAP Cobalt	BASF ERP Software for the handling of economical procedures

## 2. Registration

### 2.1. User Request

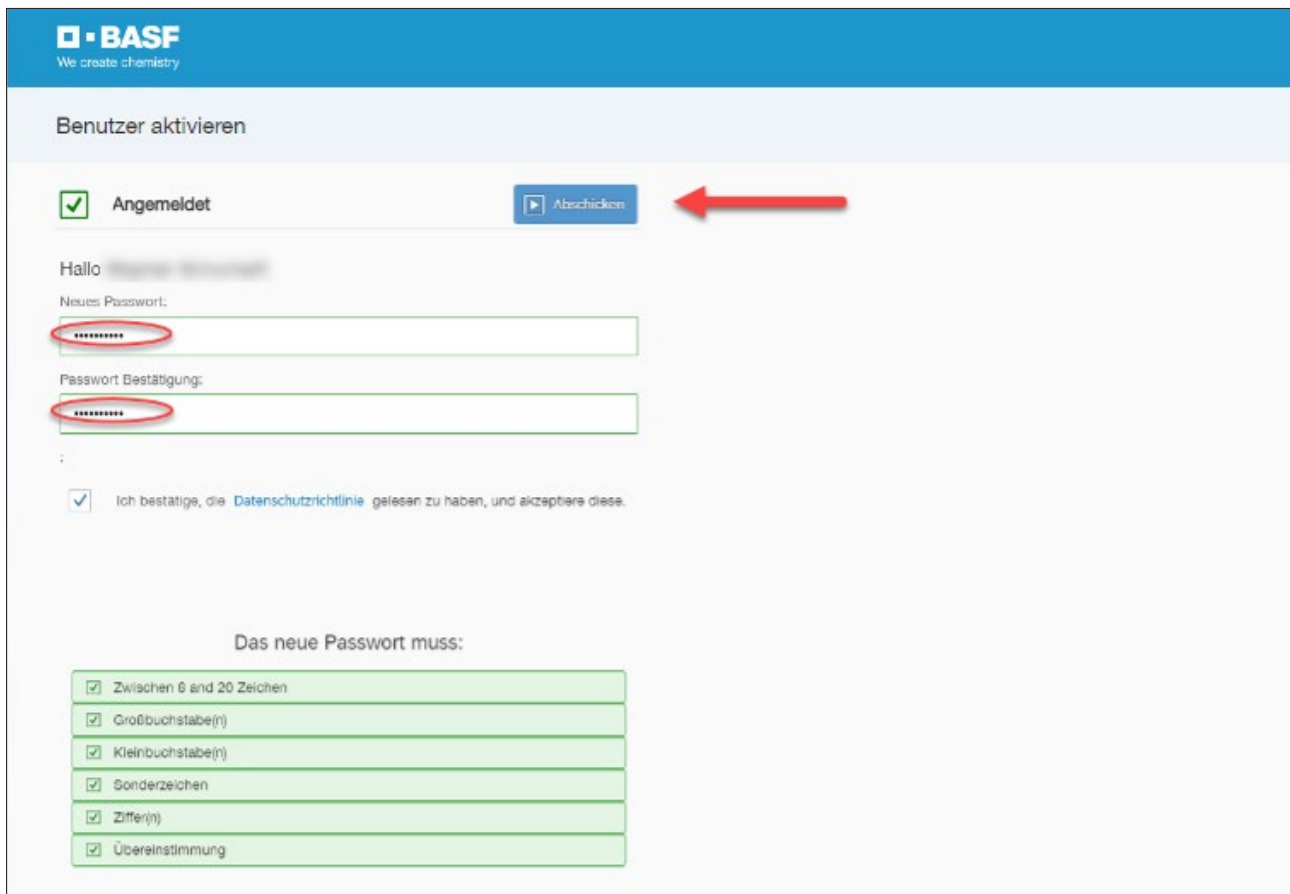

For registration please send a request with the following information to [bsw-bex-logistik@basf.com](mailto:bsw-bex-logistik@basf.com)

- Person of contact
- E-Mail
- Supplier/Carrier number

### 2.2. User Activation

You'll receive a mail from [external-profile-management@basf.com](mailto:external-profile-management@basf.com).

Set a secure password and confirm.

The screenshot shows the 'Benutzer aktivieren' (Activate user) page on the BASF website. The page has a blue header with the BASF logo and the tagline 'We create chemistry'. Below the header, the title 'Benutzer aktivieren' is displayed. The main content area shows a progress indicator with a green checkmark and the text 'Angemeldet'. To the right of this indicator is a blue button labeled 'Abschicken' with a right-pointing arrow. A red arrow points to this button from the right. Below the progress indicator, there is a greeting 'Hallo' followed by a blurred name. Underneath, there are two input fields: 'Neues Passwort:' and 'Passwort Bestätigung:'. Both fields contain a series of asterisks and are circled in red. Below these fields is a checkbox with a checkmark and the text 'Ich bestätige, die [Datenschutzrichtlinie](#) gelesen zu haben, und akzeptiere diese.' At the bottom of the form, there is a section titled 'Das neue Passwort muss:' followed by a list of six requirements, each with a green checkmark in a box: 'Zwischen 6 and 20 Zeichen', 'Großbuchstabe(n)', 'Kleinbuchstabe(n)', 'Sonderzeichen', 'Ziffer(n)', and 'Übereinstimmung'.

The screenshot shows the 'Benutzer aktivieren' (Activate user) page on the BASF website, showing the next step in the process. The page has the same blue header with the BASF logo and tagline. Below the header, the title 'Benutzer aktivieren' is displayed. The main content area shows a progress indicator with a green checkmark and the text 'Passwort Bestätigung'. Below this indicator, there is a message: 'Ihr Passwort wurde übermittelt. Sie erhalten eine E-Mail sobald Ihr Account aktiviert wurde.'

You'll receive a mail with confirmation of activation.

## 2.3. User Data

You can manage your user under <https://external-profile-management.basf.com/mydata>.

# 3. Login

The login can be reached via the following Link <https://bsw.flow-digital-yards.de>.

# 4. Check-In Process

## 4.1. Overview of relevant Steps

To check-in into the FLOW Yardsystem you need to follow the next steps:

1. Selection of transports
2. Enter Driver data
3. Enter means of transport data
4. Time Slot reservation
5. Save Drive
6. Print temporary FDS (Fahrzeug-Durchlass-Schein)

## 4.2. Selection of transports

As far as known, enter the number of the transport in field shipment no. Multiple transport numbers can be entered, divided by comma.

**Create drive**
**Step 1 of 4**

Search shipments
Select Shipments
Edit Drive Details

Create drive with selected deliveries

By selecting  , the Flow Drive will be created automatically and the Screen switches to the next step for entering of driver and means of transport data.

### 4.3. Entering of Driver Data

Freight carrier selection

Forwarding agent\*: L. Wackler Wwe. Nachf. GmbH Göppingen +

Allowed max. weight (kg): 40000

Flowcard: [empty]

Fahrt aktiv: [red dot] Flowcard Status: [radio]

Driver\*: [empty] +

Co-driver: [empty] +

#### 4.3.1. Driver Creation

Drivers need to be created in the system once.

Create driver

Name \* Schmidt

First name \* Uwe

Date of birth \* 17/01/1980

Country \* Deutschland, DE

Language\* Deutsch, DE

Mobile phone number [empty]

Forwarding agent L. Wackler Wwe. Nachf. Gm

Create as master data \*

Save

Therefore, select  and enter all data in the following box:

We'd like to ask you to enter also the mobile number, because it'll be required for automatic call offs from the gate or loading station.

By selecting  the driver data will be stored.

For the creation of a co-driver, please act analog.

Freight carrier selection

Forwarding agent\*: L. Wackler Wwe. Nachf. GmbH Göppingen +

Allowed max. weight (kg): 40000

Flowcard: [empty]

Fahrt aktiv: [red dot] Flowcard Status: [radio]

Driver\*: SCHMIDT, UWE (17/01/1980) +

Co-driver: [empty] +

#### 4.3.2. Driver already exists

Once a driver is created in the system, he can be searched and selected by entering name and birthdate.

Freight carrier selection

Forwarding agent\*: L. Wackler Wwe. Nachf. GmbH Göppingen +

Allowed max. weight (kg): 40000

Flowcard: [empty]

Fahrt aktiv: [red dot] Flowcard Status: [radio]

Driver\*: schm +

SCHMIDT, UWE (17/01/1980)

Co-driver: [empty] +

## 4.4. Entering of means of transport data

### 4.4.1. Overview of allowed truck-trailer combinations packed goods

Truck / Trailer

Entry vehicle set			
Truck		<input type="text"/>	<input type="button" value="+"/>
Trailer		<input type="text"/>	<input type="button" value="+"/>

Tractor / Semi trailer

Entry vehicle set			
Tractor		<input type="text"/>	<input type="button" value="+"/>
Semi trailer		<input type="text"/>	<input type="button" value="+"/>

Tractor / Chassis / Container

Entry vehicle set							
Tractor		<input type="text"/>	<input type="button" value="+"/>	Container		<input type="text"/>	<input type="button" value="+"/>
Chassis		<input type="text"/>	<input type="button" value="+"/>	Container		<input type="text"/>	<input type="button" value="+"/>

### 4.4.2. Creation of means of transport

As long as the used means of transport are not registered, they must be created once.

Therefore, select  .

#### Example: Tractor/ Chassis / Container

Please enter all relevant data in the box:

Tractor

Create vehicle		<input type="button" value="x"/>
Licence Number *	<input type="text" value="HH-WL 712"/>	
Country *	<input type="text" value="Deutschland, DE"/>	
Create as master data *	<input checked="" type="checkbox"/>	
<input type="button" value="Save"/>		

Chassis

Create vehicle		<input type="button" value="x"/>
Licence Number *	<input type="text" value="HH-WL 6252"/>	
Country *	<input type="text" value="Deutschland, DE"/>	
Create as master data *	<input checked="" type="checkbox"/>	
<input type="button" value="Save"/>		

And container in the lines for Licence Number.

Create vehicle		<input type="button" value="x"/>
Licence Number *	<input type="text" value="EITU9133728"/>	
Create as master data *	<input checked="" type="checkbox"/>	
<input type="button" value="Save"/>		

Einfahrtsgespann			
Zugmaschine		HH-WL 712, DE	+
Fahrgestell		HH-WL 6252, DE	+
Container			+
Container		ETTU9133728	+

After every entering of the vehicle components, select **Speichern**. The master data will be created and taken over into the transport.

### Example Truck with Trailer (if no trailer is used, keep the field blank)

Please enter all relevant data in the box:

Create vehicle	
Licence Number *	55BNS4
Country *	Niederlande, NL
Create as master data *	<input checked="" type="checkbox"/>
<b>Save</b>	

Create vehicle	
Licence Number *	OS96BS
Country *	Niederlande, NL
Create as master data *	<input checked="" type="checkbox"/>
<b>Save</b>	

Entry vehicle set			
Truck		55BNS4, NL	+
Trailer		OS96BS, NL	+

After every entering of the vehicle components, select **Speichern**. The master data will be created and taken over into the transport.

### Example Tractor / Semi Trailer

Please enter all relevant data in the box:

Tractor

Semi-Trailer

Create vehicle	
Licence Number *	LOSHA491
Country *	Polen, PL
Create as master data *	<input checked="" type="checkbox"/>
<b>Save</b>	

Create vehicle	
Licence Number *	OS80DY
Country *	Polen, PL
Create as master data *	<input checked="" type="checkbox"/>
<b>Save</b>	

Entry vehicle set			
Tractor		LOSHA491, PL	+
Semi trailer		OS80DY, PL	+

After every entering of the vehicle components, select **Speichern**. The master data will be created and taken over into the transport.

#### 4.4.3. Means of transport already exists

Once a means of transport is created in the system, it can be searched and selected by entering the licence plate. All relevant data will be available for the next check-in.

#### 4.5. Timeslot reservation

If Slotbooking is activated for the affected Loading station, it is possible to book a timeslot by selecting "Not booked" in the column loading slot.

Resources	ADR	Nominal weight (kg)	Number of packages	Product name	Resource remark	Comment	Loading time (min)	loading slot
BSW01 B669 AS	no	0	5	Chemikalien			60	Not booked

The length of the slot is calculated automatically by the system. A comment can, but must not be entered.

By saving, the selected timeslot will be assigned to the loading in the drive and displayed in the column loading slot.

Resources	ADR	Nominal weight (kg)	Number of packages	Product name	Resource remark	Comment	Loading time (min)	loading slot
BSW01 B669 AS	no	0	5	Chemikalien			60	23.09.2022 08:00 - 09:00

With double click on the displayed slot, the time can again be adapted.

#### 4.6. Save Drive and Print temporary FDS

Als letzte Aktion auf dem Übersichtsbild bitte die Fahrt speichern und Fahrt Dokumente drucken.

**Fahrt speichern und  
Dokumente drucken**

After saving, the drive has the special milestone "Forwarding agent – Drive creation (M090)".

There'll be a hint, that the driver should go directly to the ticket window for Online Registration.

Please notice the Flow drive number and communicate to the driver. With the created drive number he needs to check in at the counter for internet Check-In at BASF Schwarzheide.

#### 4.7. Cancellation of a Drive

As long as editing is allowed, the Drive can be canceled via "Edit Drive". Otherwise there'll be a error message.

For cancelation, select

**Fahrt stornieren**
